

Open items before launch

All copy from “ARHAM REALTY – WEB CONTENT – 10.09.2026” is now live on the website, word for word. The points below are the only things we cannot close from our side. Each one needs either an asset or a quick decision from you.

Prepared 10 September 2026 · 3 sections · ~5 minutes to read

1. Images we need from you

The content document calls for these visuals. Until they arrive, the website shows the Arham mark in their place.

WHERE	WHAT IS NEEDED
Premia ‘B’ & ‘C’	One “view from project” image — the document lists five slides; we have four (street, night, rooftop, podium).
Premia ‘A’	One “view from project” image — we have street, night and rooftop.
Anvaya	MahaRERA QR code, once the project is out of abeyance.
10 completed projects	One enhanced street-view elevation each: Pramod, Shailesh, Navtarun, Shree Ganesh, Toral, Pooja Park, Brahma Niwas, Jesal, Sai Dhara, Vardhaman Park.
6 upcoming projects	Stock or drone imagery of each locality — Pali Hill, Gorai / Pagoda, Sanjay Gandhi National Park, Malad East, Mahalaxmi Racecourse, Bhandup salt pans.
Legacy & Milestones	Renders for the “scrolling images” carousels. Currently one image per chapter; the 1994–2002 chapter has none.
Brahma Niwas	Google Maps pin — this project was not in the earlier schedule, so its map location is approximate.
Leadership	Photographs of the four leaders, if you would like them shown. The document has none, so the section is text-only.

2. Please confirm

Small inconsistencies inside the content document. We have kept your text exactly as written; tell us which version to use.

01 **“Last Updated” dates are blank**

All four legal texts read “[] September 2026”. Please give us the day.

02 **Two PIN codes for the office**

Contact and footer say Mumbai – 400 067. Terms & Conditions and the Grievance Officer say 400064.

03 **Grievance Officer reference goes in a circle**

The Disclaimer (§14) and Privacy Policy (§10) say “See the Grievance Officer details in our Legal Disclaimer”, but the details are actually in the Terms (§21). Shall we point both to the Terms?

04 **Figures that do not add up**

13.5 L sq. ft. delivered vs. the per-project total of about 14.0 L. “Over 23 projects” on the portfolio page vs. “17 Developments” on the About page. “2300+ Homes Created” has no source in the project list. All are shown as written.

05 **Brahma Niwas is missing from the map list**

The Geographical Network table does not include it. We have placed it under “Chembur, Ghatkopar & Bhandup”, which now shows 6 projects rather than 5.

06 **Three typos we corrected** PLEASE APPROVE

“he 639 Mtrs.” → “The 639 Mtrs.” · a double full stop after “October 2026” ·
“SKLINE” → “skyline”.

07 **Phrases we left as written** CHECK WORDING

“Honestly, absolute transparency” · “Building responsibility for a greener tomorrow” · “excel the test of time” · “we’ll be in touch about 15 working days” ·
“the values that shaped its beginning quality, dependability...”.

3. On the website but not in the document

A few navigation aids we added so visitors can move between pages. Say the word and we will remove any of them.

01 **Home page hero buttons**

“Our Story” and “View Projects” under the headline.

02 **“Get in Touch” button**

Under “Shaping Mumbai’s skyline, one landmark at a time.”

03 **“See every address” button**

At the end of the About page, leading to the Projects page.

04 **Area label on home-page cards**

The document shows “0.7L +”; the website shows the fuller “0.7 L+ Sq. Ft.” used on the project pages.

Everything else in the document — launch disclaimer, all 23 project pages, leadership, legal texts and cookie consent — is complete and ready to review.
